PADMAVATI
FILT FAB PVT LTD

Empowering the Industries

CDUNO

Brand that filters

Company Overview

Serving a global clientele from Pune, Maharashtra, we are an eminent manufacturer and exporter of advanced filtration systems and elements, driven by the 'Make in India' initiative.

- Leading Manufacturer & Exporter
- Headquarter's @ Pune, Maharashtra
- Strong commitment to "Make in India"
- Worldwide Spread
- Comprehensive product portfolio

| Founder

Mr. DILIP RAKA
Director

With over two decades of experience in the air and liquid filtration industry, he has developed prowess and excellent capability in designing, developing, and optimizing filtration solutions for a wide range of applications. His career has been dedicated to improving efficiency, performance, and sustainability in filtration systems used in industries such as automotive, HVAC, water treatment, pharmaceuticals, and industrial processing.

Mr. CHIRAG GARG
Director

With over ten years of comprehensive experience in adhesives & filtration industry for sales, production, and logistics, he has proficient skills in driving revenue growth, optimizing manufacturing processes, and streamlining supply chain operations. His multidisciplinary expertise enables to deliver integrated solutions that enhance efficiency and profitability across many verticals and ultimately drive the team.

| Our Value

Vision

To be the global leader in providing innovative, sustainable, and high-performance filtration solutions that empower industries to achieve cleaner processes and a healthier environment.

Mission

To deliver high-quality, tailor-made filtration products that ensure operational efficiency, protect equipment, and safeguard the environment, driven by precision engineering and customer satisfaction.

Values

CEO

- CUSTOMER CENTRIC
- EMPLOYEE CENTRIC
- ORGANISATION CENTRIC

About Us

Established to provide tailor-made filtration elements and filtration systems that improve operational efficiency and ensure quality is at the forefront of industrial processes.

Company Journey

15+ years of dedicated service, evolving from a local supplier to a recognized global exporter of filtration products.

Core Expertise

Specializing in liquid and air filtration, offering precise solid-liquid separation and environmental control solutions.

Manufacturing Excellence

Combining extensive experience with modern technology to deliver durable, reliable, and high-performance equipment.

Certified Quality

ISO-certified manufacturing ensuring precision, durability, and reliability.

Timely Delivery

Streamlined production for prompt service and meeting critical deadlines.

Value for Money

Cost-effective solutions that reduce maintenance and improve operational ROI.

Advanced Manufacturing

Utilizing high-end technology and imported machinery for superior product fabrication.

Customer First

Tailor-made solutions, responsive support, and a commitment to total client satisfaction.

LIQUID ELEMENTS

CDUNO
Brand that filters

LIQUID BAG FILTER

CDUNO

is producing Pulse jet bags
mainly for all common
industries.

PLEATED CARTRIDGE

CDUNO

The pleated structure provides
a larger filtration area, leading
to improved dirt-holding
capacity

WOUND CARTRIDGE

CDUNO

Wound cartridges used for
removing sediment, dirt,
rust, and other particulate
contaminants from liquids.

SPUN FILTER CARTRIDGE

CDUNO

One of the best spun filter
cartridge manufacturers in
India, we are providing
multiple types of spun.

LIQUID ELEMENTS

CDUNO
Brand that filters

HIGH FLOW FILTER CARTRIDGES

CDUNO

high particle removal efficiency in Desalination, RO-prefiltration, food and beverage, pharma, and other similar applications

FILTER PAPER & PADS CDUNO

A filter pad is a type of filtration medium used to remove particles, contaminants, or impurities from liquids or gases.

SS SINTERED FILTER CARTRIDGE CDUNO

are recommended for the filtration of air or liquid at higher operating temp & corrosive environment.

BUTTERFLY FILTER BAG CDUNO

A butterfly filter bag (or cloth) is a heavy-duty industrial filter used in filter press machines.

LIQUID ELEMENTS

CENTRIFUGAL BAGS CDUNO

It's a specialized filtration medium placed inside an industrial centrifuge's rotating basket to separate solids from liquids

FLUID BED DRYERS CDUNO

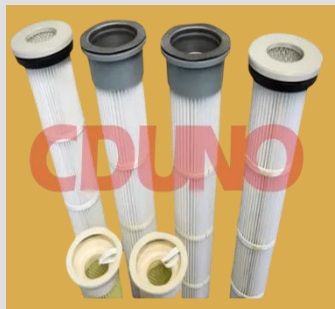

A high performance filter bags for fluid dryer used in pharmaceutical, food, and chemical processing to dry granules while containing fine dust. .

AIR ELEMENTS

**DUST COLLECTOR
BAG FILTER**
CDUNO

is producing Pulse jet bags
mainly for all common
industries.

**DUST COLLECTOR
FILTER CARTRIDGE**
CDUNO

Apply to pre-filtration of
various air-conditioning
ventilation systems and
dust removal systems.

HEPA FILTER
CDUNO

HEPA Filters are designed
to deliver high-efficiency
air filtration for demanding
applications.

**FIBER GLASS POCKET
FILTER**
CDUNO

A Fiberglass Pocket Filter is a
high-efficiency air filtration
solution designed for HVAC
systems and cleanroom
environments...

AIR ELEMENTS

PANEL / PRE FILTER

CDUNO

Panel filters, including standard panel filters and activated carbon panel filters, are designed for efficient air filtration.

PAINT ARRESTER

MEDIA
CDUNO

Made from multi-layered fiberglass, polyester, or synthetic fibers, this media efficiently traps airborne paint mist and particulate contaminants

CEILING FILTER

CDUNO

These filter bags offer exceptional particle retention and durability, ensuring efficient and reliable filtration in demanding environments..

SS FILTER HOUSING

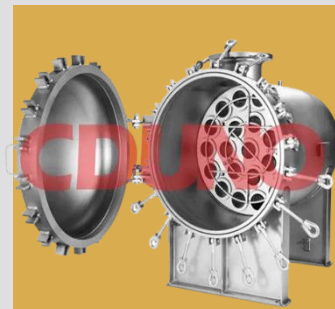

**SS BAG FILTER
HOUSING
CDUNO**

Stainless Steel Bag Filter Housing Top Entering Type is manufactured by durable 304 or 316L stainless steel.

**SS CARTRIDGE FILTER
HOUSING
CDUNO**

S.S. cartridge filter housings are large filtration area, high flow rate and low pressure loss, strong resistance to acid and alkali, and long working life

**SS HIGH FLOW
CARTRIDGE HOUSING
CDUNO**

provide better high flow filtration solutions. SS high flow multi cartridge housing is manufactured by high quality SS304 or SS316L.

**CUSTOMIZED FILTER
HOUSING
CDUNO**

are recommended for the filtration of liquid at higher operating temp & corrosive environment.

Automotive Solutions

Precision Filtration for Manufacturing

Providing high-efficiency filtration systems critical for automotive manufacturing processes, ensuring component cleanliness and operational reliability.

- ✓ Liquid filters for Paint shop and utility
- ✓ Air intake filters for critical machinery
- ✓ Oil and lubricant filtration systems
- ✓ Paint Arrestor Media for spray booths

Food Industry Solutions

Maintaining Hygiene & Quality

Providing food-grade filtration media designed to remove impurities, ensure food safety, and maintain the highest hygiene standards in processing.

- ✓ Filtration for edible oils and syrups
- ✓ FDA-compliant sanitary filter housings
- ✓ Dust collection for dry ingredient processing
- ✓ Liquid clarification and purification

Healthcare Solutions

Critical Environmental Control

Advanced air and liquid filtration systems designed to protect patients and medical staff by eliminating airborne pathogens and ensuring sterile environments.

- ✓ HVAC HEPA filters for operating theaters
- ✓ Sterile liquid filtration for medical equipment
- ✓ High-efficiency particulate air purification
- ✓ Infection control filtration media

Chemical & Paint Solutions

Handling Aggressive Environments

Our filtration products are engineered with robust materials like PTFE, Polypropylene, and Stainless Steel to withstand harsh chemicals and high temperatures.

- ✓ Centrifuge Filter Bags for chemical slurry
- ✓ Paint Arrestor Media (Fiberglass/Synthetic)
- ✓ High-temperature Filter Press fabrics
- ✓ Corrosion-resistant Cartridge Filters

Oil, Power & Pharma Solutions

Meeting Critical Standards

Delivering high-purity, sterile, and heavy-duty filtration for industries where compliance and reliability are non-negotiable.

Oil & Power: High Flow and String Wound filters for petrochemical refining, turbine air intake, and cooling water systems.

Pharmaceuticals: FDA-compliant Membrane Filter Cartridges (Hydrophobic/Hydrophilic), HEPA filters, and ultra-pure water systems ensuring sterile production.

Quality Assurance

Rigorous Testing

Every product undergoes stringent quality control testing for material strength, seam integrity, dimensional accuracy, and absolute filtration efficiency prior to dispatch.

Standards & Compliance

ISO-certified manufacturing processes ensuring our products meet or exceed international standards, including FDA compliance for food and pharma applications.

Global Presence

Proudly exporting advanced filtration solutions worldwide.

Our Competitive Advantage

Custom Filtration: Engineering solutions specifically tailored to unique application requirements.

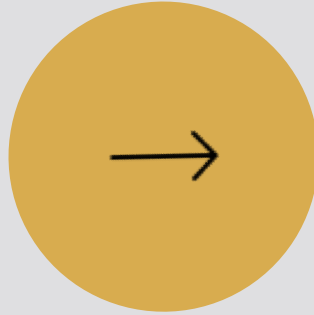

International Standards: Products designed to meet global quality and compliance benchmarks.

Fast Delivery: Efficient manufacturing processes ensuring prompt fulfillment of orders.

Cost-Effective: High-performance media that extends service life and reduces operational downtime.

Technical Support: Dedicated expertise to assist with selection, installation, and optimization.
